

## DEVELOPMENT COST CHARGES BYLAW, 2024, NO. 3256

### A Bylaw to impose Development Cost Charges

WHEREAS pursuant to the *Local Government Act*, in particular section 559 thereof, the Council of the City of Langley may, by bylaw, impose development cost charges;

AND WHEREAS development cost charges may be imposed for the purpose of providing funds to assist the City of Langley in paying the capital costs of providing, constructing, altering or expanding sewer, water, drainage and highway facilities, and of providing and improving parkland, to service directly or indirectly, the development for which the charges are imposed;

AND WHEREAS the Council of the City of Langley is of the opinion that the charges imposed by this bylaw:

- (a) are not excessive in relation to the capital cost of prevailing standards of service in the municipality;
- (b) will not deter development in the *City*;
- (c) will not discourage the construction of reasonably priced housing or the provision of reasonably priced serviced land in the *City*; and
- (d) will not discourage development designed to result in a low environmental impact in the municipality;

AND WHEREAS the Council of the City of Langley has considered the charges imposed by this bylaw in relation to future land use patterns and development, the phasing of works and services described in the Official Community Plan, and how development designed to result in a low environmental impact may affect the capital costs of sewer, water, drainage, highways and parks;

AND WHEREAS in the opinion of the Council of the City of Langley, the charges imposed by this bylaw are related to capital costs attributable to projects included in the municipality's financial plan and long-term capital plans, and to capital projects consistent with the Official Community Plan;

NOW THEREFORE the Council of the City of Langley, in open meeting assembled, enacts as follows:
