

Recreation Programs – Spring Break Camp at Douglas Recreation Centre

Control Measures

<p>Elimination</p>	<ul style="list-style-type: none"> • DRC building is operational, but public access is restricted. • Physical distancing: <ul style="list-style-type: none"> ○ Keeping 2 meters away from other employees. • Smaller camp size, maximum 12 campers • No daily camp registration, weekly camp registration only • Routine daily screening for all staff and campers • Routine and frequent environmental cleaning • Physical distancing (activities will all have the central idea of being physically distant) • Each child will have a bin that contains their supplies and their toys <ul style="list-style-type: none"> ○ Bin contents will include: ○ Personal supply bag ○ Craft “kit” ○ Play equipment (lego, ball, bean bags etc) • Each child will be given their own craft “kit” zip lock bag containing scissors, glue stick, crayons, and felts to reduce cross contamination • They will have their own designated area to put their belongings and when they need to go to their bag it will be done in an orderly fashion. • Leave work / stay at home policy for flu-like or any of the Covid-19 related symptoms, travelled outside of Canada within the last 14 days, or been identified as a “close-contact” with a confirmed positive Covid-19 case. • Increased outdoor activities to limit time in the building • Designated sign-in and sign-out area for parents
<p>Engineering Controls</p>	<ul style="list-style-type: none"> • Regular surface cleaning and disinfecting of surfaces, high touch items and barriers such as door handles, elevator buttons, light switches

	<ul style="list-style-type: none"> • Handwashing stations (washrooms) and use of alcohol-based hand rubs provided. • Hand sanitizer will be provided at the sign-in table • Disinfectant spray for equipment and surfaces • Plexi glass will be provided for staff at the sign in table
<p>Administrative Controls</p>	<ul style="list-style-type: none"> • Explicit policy for children or staff (including Inclusion Langley staff) who have the symptoms of a cold, flu, or COVID-19 with coughing or sneezing not coming into daycamp. • All visitors are required to wear a mask in City of Langley facilities. Masks do not need to be worn while exercising or doing an activity but must be worn in all common areas including entering & exiting the facility, stairways, hallways and bathrooms, and if physical distancing of at least 2 meters cannot be maintained. • No food sharing • Signage to ask people not to enter if they are experiencing any of the Covid-19 related symptoms. • COVID-19 etiquette signage for the public and staff. • Exposure Control Plan shared with employees. • Reporting of hazards and unsafe work and right to refuse unsafe work. • New employees and returning employees trained on COVID-19 protocols before the first day. • Training on COVID-19 protocols to staff via emails, handouts and crew talks. • Manager reminds employees about hand washing, distancing, safety, cleaning. • EAP Program or other resources shared.
<p>Protective Equipment</p>	<ul style="list-style-type: none"> • Nitrile gloves provided as needed • Staff must wear a mask at all times

Mitigating Risk of Infection When Administering First Aid – COVID-19

When administering first aid, apply the following principles to help reduce the risk of disease transmission. These principles do not replace first aid assessment and treatment skills, but rather provide supplemental requirements for administering first aid during COVID-19. Please see the COVID-19 for First Aid and Resuscitation.

No contact procedure

- Staff stays 2 metres from the victim
- Visual and verbal victim assessment
- Staff gives first aid supplies to victim
- Victim administers the first aid treatment under the staff guidance
- Staff fills in Accident Report Relating to Member of the Public Form

Direct contact procedure

- Administer first aid maintaining physical distancing (2 meters) if possible by providing first aid supplies and instructing the victim how to administer.
 - If physical distancing (2 meters) isn't possible; staff must wear PPE: gloves, surgical mask and eye protection and must have the victim put on a surgical mask and then performing first aid.
 - If the victim is not breathing call 911, put on PPE, cover the victim's face and start chest compressions until help arrives; use an AED if available.
 - Staff must properly discard and/or decontaminate all protective equipment after the rescue and wash their hands or use alcohol-based hand rub before continuing with their duties.
 - Staff fills in Accident Report Relating to Member of the Public Form
