

## **LANGLEY CITY'S VILLAGE CAFE -RESTORATIVE DIALOGUE INITIATIVE**

# **RESOURCE AND REFERRAL FAIR**

Creating a vibrant, healthy, and resilient community means ensuring everyone has access to the resources and information required to receive the services and support for things like housing, employment, food and income, and participation in the community.

Please join us each month at the free Langley City's Resource and Referral Fair, where agencies, organizations, community groups and residents will gather to connect, learn more about what services are available, participate in community solution labs, and participate in informing the City's Social, Cultural and Economic Development Framework.

### **WHAT IS NEEDED TO ENSURE AFFORDABLE AND APPROPRIATE HOUSING IN LANGLEY CITY**

Join us this month to meet with local housing providers, engage with housing experts about current policy changes to support affordable housing creation, and participate in a housing solutions lab.

The Langley City Village Cafe-Resource and Referral Fair aims to raise awareness of available services, build relationships, address community needs, and foster ongoing community development activities through a different monthly focus, including: Housing, Healthy and Resilient Family and Child Care in April, Health Care, Community Health, and Wellness, and Community Safety, Community Social Development and Community Building, and a wrap up Social, Cultural, and Community Celebration.
